ONH Centered

*Do not use the above thumbnail images for diagnostic purposes.

ICD-10 Diagnosis Codes

E10.9 Type 1 diabetes mellitus without complications

Plan and Recommendations

Return for retinal imaging within 12 months.

As per ADA recommendations, emphasize the importance of controlling blood sugar, cholesterol and blood pressure as well the importance of routine follow-up with an ophthalmologist regardless of whether visual symptoms are present or absent.

Comments

Left Eye: None

Right Eye: None
