Macula Centered

ONH Centered

*Do not use the above thumbnail images for diagnostic purposes.

ICD-10 Diagnosis Codes

E11.3513 Type 2 diabetes mellitus with proliferative diabetic retinopathy with macular edema, bilateral

Plan and Recommendations

Immediate referral to ophthalmologist for evaluation of vision threatening diabetic retinopathy.

As per ADA recommendations, emphasize the importance of controlling blood sugar, cholesterol and blood pressure as well the importance of routine follow-up with an ophthalmologist regardless of whether visual symptoms are present or absent.

Comments

Left Eye: None

Right Eye: None
